bill to allow the sale of certain public property in and about the city of Raleigh for the benefit of the University, was taken up. [Provisions of the bill already published.]
Mr. Brown, of Davidson, offered an amendment which gives the proceeds of such to the free public schools of the State.

Mr. McGehee opposed the amendment. He took occasion to point out the mis-statements in the editorial in regard to the matter in this morning's Examiner. He stated that he would concede that the assertion that this measure would impose a tax of \$100,000 upon the people of the State was a mistake on the part of the writer, for he did not think that journalism in this State had fallen so low as to resort to disreputable expedients,

EXECUTIVE DEPARTMENT.) STATE OF NORTH CAROLINA. Raleigh, 12th Feb., 1874.)

REV. J. V. MCNAMARA, Rev. and Dear Sir:-I have the honor to acknowledge the receipt of your kind and polite invitation to be present and participate in the celebration of St. Patrick's Day, memorable in the annals of Ireland, and

dear to the heart of every Irishman. As the son of an Irishman (John Caldwell, who immigrated to America in the year 1800, at the age of twentyone years, and who, although a Protestant, entertained the warmest sentiments of friendship for all of his countrymen of whatever religious belief,) it is very grateful to me to see the Irishmen of this country perpetuate the festivities and notable holidays of their father-land, and to be assured, as I am by your letter, that they have the earnest desire to improve the condition of their adopted country, and to elevate it in the scale

of the nations of the earth. The Irish are a noble hearted, genial and generous people, and as a class I welcome them to North Carolina, and bid them God-speed in their every effort to improve their own condition, and to elevate our State to an enviable position among the sister States of our Republic. Honest, enterprising, energetic emigrants from every nationality will always meet with a warm greeting from every true-hearted son and daughter of the "Old North State," without regard to their religious or political creeds, and no one in the State will be more rejoiced at a steady influx of Irish, German, English and other foreigners, or grasp them with a warmer grip of the hand and heart than I. I beg to assure you, my dear sir that it will afford me great pleasure to meet with you and other friends on the occasion of the celebration of

the patron Saint of Ireland, if it be in my power to do so. Thanking you for the honor done me by your invitation and the kind term in which it was couched,

I am, sir, very truly and respectfully your obedient servant, TOD R. CALDWELL.

MR. BRYANT TO DR. GRISSOM, NO. 2. RALEIGH, Feb. 11, 1874.

SIR:-Your note handed me by Mr. W. A. Hearne, demands of me that I retract certain language used in my reply to your communication in the News of the 4th instant. You said that the author of the article in the Sentinel, in relation to the expenditures of the Insane Asylum, was an ignorant, cowardly and vicious scribbler. From a conversation I had with you a few days before that article appeared, I concluded you thought I wrote it, and in my reply in the Sentinel. signed C., I said if the report of the committee was true, and you did not say it was untrue, that the language ignorant, cowardly, &c., would better apply to you, who acted cowardly in using these terms uncalled for. I did not say that you were a coward, but you did say that will be at the town of Roxboro, Person county. The construction of this coad would open a rich tobacco growing country.

> MR. HEARNE TO DR. CARSON, No. 3. RALEIGH, Feb. 11, 1874.

DR. J. M. CARSON, Raleigh, N. C.: SIR:—Mr. W. H Bryant's letter of this date, through you, to Dr. Eugene Grissom, is received, in which Mr. Bryant says:—"When you take back yours (Grissom's language) I will mine."

In his card in the NEWS, of a certain date, Dr. Grissom had no reference to Mr. Byrant, nor the least suspicion that he was the author of the Sentinel article; nor does he now understand that Mr. Bryant was the author of that communication. On the contrary he is informed that Mr. Bryant did not write the said com-munication. But in his avowed article in the Sentinel of the 10th inst., signed "C," Mr. Bryant had direct reference to Dr. Grissom, as the well known author of the article in the

THE ruinous effects of Radical rule were never more forcibly illustrated | should ever so assault matrimony than in the case of our sister State of South Carolina. The following figures concerning the rate of taxation in that State demonstrate more clearly than words can show the truth of the declaration that everywhere in the of giving our hearty assent to the South the supremacy of the Republiean party has been the cause of intolerable evils.

In 1865-'66, before reconstruction and the advent of the carpet-bagger, that his course as a legislator has the amount expended in salaries was \$76,481. In 1873 the sum expended for the same purposes was \$230,797. In 1865 the expenses of the State Legislature were \$51,337; in 1873 the amount so used reached \$291,339. The cost of the administration of the State government under Conservative rule was \$286,248 per year. The same | that these assaults are made because items under Radical administration foot up the enormous sum of \$1,717,-

Let the people of North Carolina ponder well the lesson bought by these figures, and abate no effort to prevent the return to power of a party so utterly regardless of popular rights and interests.

THE Washington Republican, of Tuesday last, under the heading "Perpetrating Treason," has a bitterly hostile criticism of the late meeting of the Southern Historical Society in Baltimore, and of the address of Gen. I sent her a present of a handsomely tion. Let us tell the Republican that all the assertion and all the abuse it may offer will fail to persuade the people of the South that the motives which moved them to that struggle were treasonable. plunged her. • The Greensboro Patriot learns that there is a twelve year old boy named one Y ar..... Smith, in Jackson Hill township, Davidson county, who is suffering from a case of hydrophobia induced by a bite from a cat.

When Dr. Gregory applied to Judge Cloud for an order to force the Coroner of Surry county to hold a post mortem examination of the ramains of the Siamese twins, he is reported to have responded, "Go to hell-thar

The ungrateful rascal rose early in the morning, gathered up a lot of clothing, and made off. He was pursued, overtaken, and made to disgorge, and then given 39 lashes with a cow-hide.

The woman's whisky war in Ohio, which, we are told, shows no signs of abating its ferocity, has now a com-panion in the raid made upon the Boston bar-rooms by the police, un-der the orders of the Prohibition Commissioner. In the former case the ladies, always encouraged to increased energy by opposition, are growing more and more resolved to carry the day, and are extending their hostilities into new counties. In the latter case the police are striking at high game, and have already made "hauls" of about eighteen thousand dollars' worth of the proscribed fluids at the principal hotels-Young's, the Tremont, and the Sherman houses. The probability, based upon experience, is that in a few weeks the spirits of the Ohio Amazons and of the Hub police will be exhausted; and then those other spirits, now under the ban, will rule again with more absolute sway than before the breaking out of the rebellion, which has for a while interfered with their supremacy.

Martin Higgins, the New York hackman, convicted of an outrage on Mary O'Brien, a girl from Philadel-phia, whose trunk he was employed to carry from the depot, has been sentenced by Recorder Hacket to 20 years in the State prison. The girl was a stranger in New York, having just arrived, and had placed her check for baggage in the hands of the hackman. The circumstances of the case were simply shocking, and a more righteous sentence never was passed.

It is related of an aged couple who lived in Venango county, Pa., that they never spoke to each other for ten years. except in an occasional quarrel, although living together up to the time of the old lady's death, which occurred on New Year's morning, aged about eighty years. During her last sickness her husband did not speak to ber, but showed signs of relenting after her death. This peculiar couple raised a large family, all of whom are respected and honored

citizens. Rev. Edward R. Rich, having accepted the Pastorship of the new Episcopal congregation in Raleigh, services will be held and Mr. Rich will preach in Tucker Hall at 11 o'clock Sunday morning, and also in the afternoon.

To the Farmers and Guano Dealers of North Carolina and Virginia: Gentlemen: To the mary of you with whom I am personally acquainted, I would say, that of good r-sults from GUANAHANI GUANO, I have not the shadow of a doubt ontaining, as it does, in such large amounts, the essentials for plant food, success from its application would seem certain. It being of animal origin, you will see at once that its begredients must be all sluble in the sil. Its nitrogen, from nitricacid, is the most available form known to chemistry; the other part, from undecomposed animal matter, is preferable to the vocatile salts in Peruvian Guano. I ask of each of you the kindness of a thorough examination of the accompanying analyses by two of the great chemists of the country. With respect, yours truly,

I have no hesitation in endorsing any analysis from his laboratory. And I think the analysis justifies his statement that the substance examined by him is a VALUABLE dANURE. From his report, and that of Prof. Wilson, it is evidently a TRUE GUANO, both in origin and composition, and its action on crops may be expected to be the same in kind and in degree proportioned to its relative per centage of the valuable ingredients—Phosphoric Acid, Ammonia and Potash, that of the first being unusually high.

ANALYSES. The following analyses of different cargoes and samples by two of the leading chemists of the country, are given for the guidance of the public: LETTER OF PROF. P. B. WILSON, LATE ASSISTANT OF BARON J. VON LIEBIG.

CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street, CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street,
Baltimore, December 1st, 1873.

MAJ. N. M. TANNOR, President Guanahani Guano Company, Petersburg, Va.:
Dear Sir: I have drawn samples of the Guano, as it has arrived in cargo lots, and find it exceedingly uniform in the amount of Phosphoric Acid it contains, namely, from 45 of 19 per cent. This is can sined with Lime, and is of animal origin, and readily assiming the plants. It contains potential ammenia and nitric acid, having a combined Nitrogen value equal to rom 2 to 3 per cent. Of ammonia, with the alkalies Potash and soda, and valuable proportions of sulphate of Lime. The whole forming a very desirable combination for all crops, and when applied to land, the crop receiving proper tillage, must, in my opinion, give as good results as any guano offered to the farmer.

Being or animal origin, the organite matter has undergone partial decomposition, and it necessarily contains a valuable amount of Humos, which makes its fertilizing power much greater than fertilizer which are compounded large y of Peruvian Guano, which, beyond its ammonia and small phosphatic value, has little ar no power in absorbed by moisture and brought down by the rains, as the guano you are now placing upon the market from the atmosphere and retaining in the soil the movable elements absorbed by moisture and brought down by the rains, as the guano you are now placing upon the market All of the components of this Guano are very soluble in the soil, and p seess such physical properties as to render it at all times and under all circumstances as in mediately evaluable plant food.

The late samples you sent me for analysis, from the deposit which you inform me you note at to ship from, show a decrease in the phosphatic value, but a large increase in its nitrage compounds. I think, however, form revious observations of cargoes, that you may reasonably expect, that cargoes taken from where these samples were drawn, will materially improved in the saline compounds. Maj. N. M. Taannor, Petersburg, Va.,
DEAR SIR: In compliance with your request, I have analyzed sample of "Guanahani Guano," and have made additional exam nation of an average sample from a lot of 300 ons, the result of which, I beg to embrace in the following. The Guano is a brownish powder, with lumps of combinations of lime with Carbonic Phosphoric and Nitric acids, it contains a considerable quantity of water (about 20 per cent.), and when dried is a paler orown powder. The Guano is evidently of animal origin, and the minute bones, which were discovered in the same, indicate that it is the result of the decay of bats mice, &c. The quantity of organic matter, which is still present, is about 12 per cent., and this yields about 23 per cent. of ammonia. A portion of the nitrogen is present, as ultric acid, of which about 3 per cent. wa found. All the nitrogen present would be equivalent to about 33 per cent. of ammonia. The phosphoric acid in the Guano, about 12 per cent., equal to 27 3 per cent. of bone pho phate. A considerable quantity of the phosphoric acid, however, is present, as so-called neutral phosphate of lime, which, being slightly sole ble in water, renders the Guan as quick in its action, as a corresponding quantity of superphosphate would do. The smalt per centage of pot sh, which was found in the aboulysis, adds to its value.

From all the experiments which I have made of the Guanahani Guano, no doubt can exist that it is a valuable manure.

Yours truly,

F. A. GENTH.

Dear ir: Yours in regard to the Guano was received some time ago, and as I know very little, personally, about the effect it had, I laid it aside until I could go home and in quire. I learn that is did improve the wheat to some extent, I did not apply any other Guano. I applied other Guano. I applied * Bone Dust, and I learn your Guano was of about the same efficacy in fertilizing, so far as the appea ances of the crop indicated.

Please send me a bill for Guano, and I will send you a check. 1 sm, very truly, in haste, yours, &c., LEVIN WOOLFORD.

[Letter from Ex-Governor Smith.] Warrenton, Va., August 4th, 1873. Mr E. A. DUNLAP,
The extraordinary character of the season (a rain almost every day,) puts it wholly out of my power te form an estimate of your Guano. The crops of carn and retabagas to which it applied, look very fine.

Yours, truly.

WM. SMITH. Bethel Academy, Fauquier County, Va., July 24th, 1873, Mr. E. A. DUNLAP.
Dear Sir: I used your Guano on my wheat last fall, and I am highly pleased with it. think it is as good as the high priced Guanos. I have a good paying crop of wheat, and the bests and of grass I ever had, and this is the opinion of thoss who have seen both, notwithstanding the unfavorable winter and early spring. I shall use it again this fa.l. Yours,

Dear sir: If I could have made collections, I certainly would have used two tons o
the Guano you sent me this fall.

I coulder it better for wheat than any other Guano that has been used in this county M. C. BLACKWELL. Respectfully yours,

Mr. E. A. DUNLAP,
lear sir: The Guano purchased from you was used upon comby the side of one of
the best ammodiated soluble phosphates in the market. The quality of the land was
the same as was the quantity of guano and phosphate used. The corn where the Guano
w s used appeared to start sooner, and in the fall was fully ten inches higher and ripened earlier than where the Phosphate was used.

Very respectfully, &c.,

We, the undersigned, have sold your Guano for two seasons. Those that have purchased are buying again, and are pleased with the results.

E. T. Wroth, Esq., Baltimore, Md.,

Dear Sir: I have your lavor of 4th inst., making inquiries as to the results from application of the Guano which you sent me last fail. I applied it at the rate of 170 pounds per acre—the same quantity as of the other fertilizers I was then using. The wheat throughout the field bore much the same general appearance, with perhaps something in favor of your Guano. The grain of my crop on that field wasgenerally of fine quality, and I cannot say that I observed any perceptible difference in its appearance.

The result in quantity, (the most important point,) I regret not to be able to give you. Threshing my crop by steam power, my attention was occupied at many points at the same time, and on one of these occasions this particular parcel of wheat was threshed before I was aware of it, and without any note of its comparative yield. I there ore cannot pronounce positively in its favor, over others; but, from its general appearance, I judge it quite equal to other standard fertilizers of established regulation.

Very respectfully yours.

WM. HENRY DELOURCY.

Dear Sir: Yours of the 4th received and contents noticed. You must excuse me for not reporting to you sooner the result of the experiment with your Guano. I seeded it by the side of * * * * * 's Raw Bone Super-Phosphate, at the rate of 150 ibs. to the acce, of each. Whilst growing, I mer any to whom I showed It, could not perceive the least difference. The yield was equally good—about 25 bushels to the acre. I consider it equally as good as * * * * * * s, in every respect. Please inform me the price, as I intend using some on wheat this fall. WM. R. Griffith, Esq., General Agent,
In reply to yours of the 12th, will say, the farmers can say but little, as yet, in regard
to Guanahani Guano. But Maj A. G. Davis, who used one bag, by the side of several
other fertilizers, says, so far, the Guanahani looks better than any of the others. All
parties say, so far, they can see no difference in their grain wherever it is up sufficient
to judge. By the pring, I can give you a more satisfactory report. Hoping to have the
pleasure of a visit from you, soon,
I am, truly yours. I am, truly yours, W. H. B. DORSEY.

P. S.-I have commenced making a stir for the Spring trade. San Marino, Dinwiddie Co., Va., November 15th, 1873.

W. R. Griffith, Esq..

Dear Sir: Yours of the 12th inst., was received on yesterday, and, in compliance with your request, I hasten to reply. I purchased half ton of Guanahani Gua o, from Messrs, Rowlett & Tannor, 1st of October, 1873, to use upon my wheat crop, as an experiment. I applied it 200 lbs. per acre. The wheat was seeded from the 10th to the 17th of October I was very coreful in the application, leaving two strips of land through the field; one of an acre, the other two acres. The one acre strip was manured with *** *Phosphate. The two acres trip was in tobacco, heavily manured with subble manure and *** **

Tobacco Fertilizer. I also added a strip of very poor land (stubble) on one end, three-fifths of an acre. Upon this I applied 100 lbs. of Guanahani, and also moistened the wheat and rolled it in the Guano. (I mean the wheat sewn upon this three fifths **rip.)

The season has been favorable, and the young wheat is looking very well; and the tupon the narrow strip of poor land, equally as good as upon the heavily manued tobacco and. I am setisfied hat the Guano is acting upon this *trip of wheat, as the land was very poor. I do not think that it would be well for me to make a positive assettion just yet, bu will carefully note the result and let you hear from me again.

Yours respectfully.

Messrs, Rowlett & Tannor,

Dear Sirs. In reply to your inquiries in regard to the Gusnahani Guare, which I purchased last summer. I can only say that I applied it on my wheat crop, sowing it br. adcast and plowed it in with the wheat. So far I am vary much pleased with the Guano. Where I used it, the wheat looks better than any I have seen, and my neighbo s who have seen it, consider it so. I applied it the first of October, and it shows very plainly over the wheat where there was nothing used.

Very respectfully,

Dear Sir I am just in receipt of your letter, but recret that I did not receive it sooner.
I used your Guano side by side with ** * * * * Ammoniated Super-Phospiate, and could perceive to difference, only in growth of the straw. The straw from * * * * * * grapher the largest. The grass from it was equally as good, and I do not hesitate in recommending it to farmers as a reliable fellinger.

Dear Sirs: Lused on mowheat, sowed about the lst of October, a half ton of Guanahani Guano, and so far 1 am very much pleased with its action. Where I used the Guanahani the wheat is look ng remarkably well—a great deal better than the wheat

sown on a pea fallow.

Very respectfully, J. N. WINFIELD. Prince George County, Va., December 16th, 1873. Messrs, Bishop & Branch,

Messrs, Bishop & Beanch,
Sirs: You ask me my ordinion of the Guana hani Guano I puechased of you last fall.
I used the kuano on my wheat, but owing to the unfavorable fail for the growth of wheat, it would be imposs be for any manure to show its strength fully. However, I think the guan oa good ertilizer, from the fact, that the wheat looks as well as it does where a well known fertilizer was used that cost nearly double the money.

Respectfully,

A. G. JORDAN A. G. JORDAN. Petersburg, Va., December 16th, 1873.

WM. R. Griffiih, General Agent of the Guanahani Guano Company,
Dear Sir. In reply to your enquiry about the action of the Guanahani Guano on my
wheat crop, I would say, up to the present time it is looking very well.
Yours truly,

SAMUEL H. JONES,

Prince George County, Va. Broad Run Station, Fauquier County, Va., December 4th, 1873. Broad Run Station, Fauquier County, Va., December 4th, 1873.

Mr. E. A. DUNLAP,
Dear Sir: I lett one row without your fertilizer, and used it on the next row. I used at the rate of 200 pounds to the acre. I had the corn care ully gathered separate, and found the result as follows: From the Guano row I shelled one bushel and nearly a half gation; from the row without guano I got a half bushel and not quite a quart; making fully nouble where I used guano. The growth of stalk was not proportionately heavy—the strength seemed to go to the grain, I thin k it an excellent Spring fertilizer. The land I tried it on was quite thin.

Yours, &c., Yours, &c.,

A. D. SMITH. Poplar Mount, Greensville County, Va., December 17th, 1873.

Mesers, Rowlett & Tannia Received. You ask "How I like the Guanahani Guano, 86 far?" Guano, so far?"

In reply I have to say that I used five bags last fall, experimentally. I applied four bags to wheat at the rate of 200 pounds to the acre. I died the same quantity (200 pounds) on winter oats. The wheat was not sown until about the 20th of October, but has already a healthy, vigorous blade. The present indications lead me to believe that it is decidedly superior to any of the sup r-phosphates.

The winter oats we e sown the last of September. In the application to this crop, I have, in consequence of earlier seeding, a better opportunity of observing the effect of the Guanahani Guano. Here it is most marked and decided. It reminds me of former dys, who n, for a noderate outlay of money, the farmer purchased the pure Chinchs Island. (unadulterated) Peruvian Guano.

I wish to try some of this Guano next year on cotton and tobacco.

I am, very truly yours,

GEORGE W. FIELP.

GEORGE W. FIELP. The Company recommend an application of from 200 to 250 pounds per acre, but not over the larger amount.

As it will be impossible to bring but few thousand tons to this country in time for the spring irade, orders must be sent an early day to secure it.

Gov. Kemper, of Virginia, calls and pays his Respects to the Chief Magistrate, Nothing More - ur

mised Particulars of the Interview. WASHINGTON, Feb. 12.-Governor Kemper, of Virginia, being in Washington on business, made a call of courtesy upon President Grant to-day, remaining at the Executive Mansion not more than 15 or 20 minutes. It was some time ago stated that Colonel Mosely had prearranged an interview between these gentlemen, but the Governor says there is no truth in the report, and that he called merely to pay his respects to the Chief Magistrate, the same as any other citizen of the United States, and with political object in view. The Governor, in conversation with friends who called upon him at Willards Hotel, spoke of the pleasure the visit afforded him, the President receiving him in a spirit of marked friendliness and courtesy, and in the course of the conversation expressed his views deliberately as if weighing well his words, which left a favorable impression on the Governors mind. As the interview was private the subject of the conversation can only be inferred by the Governors own

free utterances to-night, that he and his political friends in Virginia stand on a broad Conservative platform, which he says gives all the States coequal rights as members of the Union; that they may discharge all their duties and restore perfect peace and reconciliation to all parts of the country. They will support every body that

supports that platform, which the Governor framed, and which was indorsed by the people of Virginia, and they will oppose, he further says every body who opposes the Constitution and the harmonizing princi-ples therein expressed. The Governor will return to Virginia to-morrow morning. ----
